A good turn: Stab, stab, leave

1. **Move** next to a target who already has an ally beside them, or who hasn't acted yet in round 1.
2. **Attack with the shortsword.** If it hits, add Sneak Attack (2d6), plus 4 in round 1 if the target hasn't gone yet.
3. **Attack with the dagger**, free, thanks to Nick. If the shortsword missed and this hits, Sneak Attack goes here instead.
4. **Bonus action: Disengage** and walk away, or Hide if there's cover.

IF THINGS LOOK DIFFERENT

Nobody's near your target and you're at range: Don't move. Steady Aim, then shoot with the shortbow for Advantage and Sneak Attack.

You need to get across the room: Bonus action Dash: 60 ft in a turn, and you can still attack when you arrive.

You're surrounded: Disengage first, walk out, then throw a dagger from where you end up.

BONUS ACTIONS AND REACTIONS

- **Bonus action:** Disengage, Hide, Dash or Steady Aim, one per turn.
- **Reaction:** nothing yet except an Opportunity Attack when an enemy walks away from you. At level 5 you get Uncanny Dodge.
- Sneak Attack only counts once a turn. On an enemy's turn you can use it again with an Opportunity Attack.

FEATURES

Sneak Attack

Once per turn · no limit per day · 2d6 now, 3d6 at level 5

Add 2d6 to one hit each turn with a Finesse or ranged weapon, if you have Advantage on the attack **or** an ally is within 5 ft of your target. This is most of your damage.

Use it when Every turn you can. If the first attack misses, you can still add it to the dagger.

Assassinate

Every combat · first round only

You have Advantage on Initiative. In round 1 you have Advantage on attacks against anyone who hasn't had a turn yet, and a Sneak Attack hit that round adds extra damage equal to your Rogue level: 4 now.

Use it when Always: go for the biggest target who hasn't moved yet.

Cunning Action

Bonus action · every turn

Dash, Disengage or Hide as a bonus action.

Use it when After you stab something: Disengage and walk away, or Hide behind cover.

Steady Aim

Bonus action · every turn

Gives you Advantage on your next attack this turn, which turns on Sneak Attack. You must not have moved this turn, and your Speed is 0 for the rest of it.

Use it when You're at range with the shortbow and no ally is near your target.

Vex and Nick (Weapon Mastery)

Always on · you can swap the two weapons after a Long Rest

Vex: when your shortsword hits and does damage, you have Advantage on your next attack against that target before the end of your next turn. Nick: when you attack with the shortsword, you can also attack with the dagger in your other hand as part of the same action, so your bonus action stays free.

Use it when Stab with the shortsword first, so a hit gives the dagger Advantage.

Expertise

Always on

Double proficiency in Stealth and Deception. That's why they're your two biggest numbers.

Use it when Hiding, and lying to anyone about anything.

Alert

Origin feat · always on

Adds your proficiency bonus to Initiative. Right after everyone rolls, you can also swap your Initiative with a willing ally.

Use it when Swap only if a friend badly needs to go first. You usually want to go first yourself.

Gnomish Cunning

Species · always on

Advantage on Intelligence, Wisdom and Charisma saves. Most spells that mess with your head use those.

Use it when It's automatic. Remind Scott.

Rock Gnome

Species · cantrips, no limit

You know Mending (fix a small break, takes a minute) and Prestidigitation (tiny tricks: light a cigarette, clean a shirt, make a small smell or sound). With 10 minutes you can build a tiny clockwork toy that does one Prestidigitation trick. Up to 3 at once, and each falls apart after 8 hours.

Use it when Any time you want to look like you have a guy for that.

Assassin's Tools

Always on

You own a Disguise Kit and a Poisoner's Kit and are proficient with both. Add +2 when you use them.

Use it when Getting into places, and level 5's poison trick.

Thieves' Tools

Always on

Proficient, so add +2 and your Dex (+6 in all) to pick locks and disarm traps.

Use it when Locked things.

AT LEVEL 5: END OF SATURDAY

- Proficiency +3: attacks, save DCs, proficient skills and saves go up by 1, Expertise skills by 2.
- Hit points 35 → 43.
- Hit points go up by 8.
- Sneak Attack becomes **3d6**. Your round-1 Assassinate bonus becomes 5.
- New reaction and new tricks: the two cards below.
- Nothing here needs choosing: your build stays the same.

Uncanny Dodge

Reaction · once per round

When an attacker you can see hits you, halve that attack's damage.

Use it when Any big hit. It's your only reaction worth saving.

Cunning Strike

Part of a Sneak Attack · every turn · save DC 15

Give up one Sneak Attack die (decide before rolling) for one extra effect. **Trip:** a Large or smaller target makes a Dex save or falls Prone. **Withdraw:** move half your Speed right away with no Opportunity Attacks. **Poison:** a Con save or Poisoned for a minute, repeating the save each turn. Needs your Poisoner's Kit.

Use it when Trip, so your friends get Advantage. Withdraw, when you want your bonus action for something else.

A good turn: Round 1 fire, round 2 more fire

1. **Round 1, action: Summon Wildfire Spirit** in among the enemies. That's a free 2d6 burst.
2. **Round 2 on, action: Scorching Ray** at the biggest threat while you have level 2 slots, then Produce Flame.
3. **Bonus action: command the spirit** to fire a Flame Seed at the same target. That's your extra damage every turn.
4. **Move** to stay back and keep friends out of your fire. You're at range: keep a wall between you and melee.

IF THINGS LOOK DIFFERENT

Two or more enemies bunched up: Burning Hands if close, or drop the spirit on them. Your friends aren't fireproof.

A friend's at 0 hit points: Bonus action Healing Word, even if the spirit sits this turn out. Getting them up comes first.

Something's on top of you: Nimble Escape, bonus action Disengage, then walk away and throw fire.

BONUS ACTIONS AND REACTIONS

- **Bonus action:** command the spirit, Healing Word, or Nimble Escape. Only one a turn.
- **One spell slot per turn:** if you use Healing Word with a slot, your action can only be a cantrip.
- **Reaction:** nothing for now, apart from an Opportunity Attack if you're holding a staff.
- **Concentration:** you can hold only one of Faerie Fire, Entangle, Flaming Sphere, Heat Metal, Spike Growth or Guidance. If you take damage, make a Con save or lose it.

You always have Burning Hands, Cure Wounds, Flaming Sphere, Scorching Ray and Speak with Animals ready. Pick 7 more after any Long Rest: the 7 here are a good start. Casting a spell uses a slot of that level or higher, and you can cast only one spell with a slot per turn. Spell save DC 14, spell attack +6.

FEATURES

Summon Wildfire Spirit

Action · uses 1 Wild Shape · lasts 1 hour

A small fire spirit appears within 30 ft. Everyone within 10 ft of it except you makes a Dex save (DC 14) or takes 2d6 fire. It has AC 13, 25 hit points and flies at 30 ft. It goes right after you and only Dodges unless you spend your **bonus action** to command it: Flame Seed (+6 to hit, 60 ft, 1d6+2 fire) or Fiery Teleportation (it and willing friends next to it jump 15 ft, burning anyone they leave behind on a failed Dex save: 1d6+2).

Use it when Round 1 of a real fight. Drop it among enemies, away from your friends.

Wild Shape

Bonus action · 2 uses · 1 back on a Short Rest, all on a Long Rest

Turn into a small beast you've learned (6 forms at level 4, up to CR 1/2, no flyers) for 2 hours, with 4 temporary hit points. You can't cast spells while changed. Your other use for these charges is the spirit, which is almost always better in a fight.

Use it when Sneaking around as a rat or a cat. Save one charge for the spirit.

Wild Companion

Magic action · spend a slot or a Wild Shape use

Casts Find Familiar for free: a small fey animal that scouts for you until your next Long Rest.

Use it when When exploring somewhere you don't want to walk into first.

One extra cantrip, and you add your Wis to Arcana and Nature checks. The sheet already includes it.

Use it when It's automatic.

Spend a kit use on someone next to you: they spend a Hit Die, you roll it, and they regain that plus your proficiency. Also reroll 1s on your healing dice.

Use it when Between fights, or when someone's down and you're adjacent. It costs no spell slot.

Fury of the Small

Use it when Whenever you're angry. Which is the point.

Nimble Escape

Use it when Automatic.

- Hit points 31 → 38. Spell attack +7, save DC 15.

- **2 level 3 slots.** Prepare 9 spells instead of 7. **Add Daylight and Plant Growth.**
- Your circle adds Lightning Bolt for free: 8d6 down a 100-ft line, Dex save, half on a save.
- Produce Flame, Thorn Whip, Starry Wisp and Shocking Grasp roll two dice.

Simone's Warlock

Simone · level 4 · Tiefling Warlock. Love spells and revenge spells, reasonable rates.

Keep this to yourself: it names your patron.

AC	HP	Init	Speed	Spell atk	Save DC
15	31	+2	30	+6	14

Your subclass is **Fiend Patron**, because your patron is the Devil. Add Scorching Ray to your attacks: +6 to hit, three rays, 2d6 fire each.

A good turn: Curse once, then blast forever

1. **Round 1, bonus action: Hex** on the biggest threat. Then Eldritch Blast with your action, for 1d10 + 4 + 1d6.
2. **Every round after: Eldritch Blast.** Same target. Push them back with Repelling Blast when it helps.
3. **Move** to stay 30 ft or more from anything with a blade. Your range is 120 ft, so use it.
4. **Target dropped?** On a later turn, bonus action: move Hex to the next one, free.

IF THINGS LOOK DIFFERENT

Two or more enemies bunched up: Burning Hands if you're close: 4d6, and they may all drop for temporary hit points.

Something's on top of you: Bonus action Misty Step, then blast it from 30 ft away.

Someone's holding what you need: Command: Drop. Or Mage Hand if they're not looking.

BONUS ACTIONS AND REACTIONS

- **Bonus action:** Hex, moving Hex, Misty Step, Armor of Agathys.
- **Reaction:** Hellish Rebuke when something hurts you. Free the first time.
- **Concentration:** only one of Hex, Hold Person or Suggestion at a time. Take damage and you make a Con save to hold on, and Hex is the one to protect.
- **One spell slot per turn:** you've only got 2, and a Short Rest gets them back. Ask for one between fights.

You have only 2 slots, but they're level 2 and they come back on a Short Rest. Every warlock slot is the same level, so a level 1 spell cast from one is automatically stronger. That's why the spells below say level 2 numbers. Spell save DC 14, spell attack +6.
